In terms of the hardware specifications, the smartphone could sport a 6-inch full HD+ Super LCD3 display with a screen resolution rated at 1,080 x 2,160 pixels. The smartphone is likely to be powered by octa-core Qualcomm Snapdragon 652 processor, coupled with 4GB of RAM. The purported HTC U11 EYEs could come equipped with 64GB of internal storage which can be further expanded with the help of a memory card.

The smartphone is speculated to be backed by a 3,930mAh battery and run Android 7.1 Nougat. Additionally, the device could support USB Type-C port and come with IP68 certification for dust and water resistance. However, the camera configuration still remains unknown.

Furthermore, the HTC U11 EYES is likely to come with a rear-mounted fingerprint sensor, HTC's Edge Sense feature, and in Black, Silver and Blue colour options.

To know what HTC has in its pipeline, stay tuned until the expected launch date- January 15.
