

Review : MICROMAX BHARAT 1 Review: For an affordable 4G experience

Created On : 14-12-2017 **Created By :** Haider Ali Khan

One of the most renowned, well established Indian smartphone in the market in none other than the Micromax, headquartered in Gurgaon, Haryana. Micromax over the past has proved itself well and had done justice with its logo and what does that stands for. As we all know the punch logo of Micromax has punched itself in every section of the Indian economic society. It provides smartphones of every range from low to high price range. The usage of smartphones have been increased immensely in the recent last decade but there are various section of people who feel uncomfortable with the smartphones because of all the complex settings and not being able to operate it properly. Micromax has brought back the feature phone in trend and has given a gift of 4G with it. The new feature phone Bharat 1 from Micromax is aimed at reaching those sections of people who cannot afford 4G smartphones. In this review we will see what new it has to offer with its latest launch of 4G feature phone called Bharat 1. The new 4G feature phone from Micromax have fused with BSNL for providing best 4G offers to you at low price. The phone is for sure to give competition to JIO feature phone. The new Bharat 1 has something interesting to offer to the user which is that it provides you unlimited calling and data per month at an amazing price of just Rs 97 from BSNL.
